Hydrobiologia

The International Journal on Limnology and Marine Sciences

Volume 468, 15 January 2002

Growth of *Moina macrocopa* (Straus 1820) (Crustacea, Cladocera): influence of trophic conditions, population density and temperature
A. Benider, A. Tifnouti, R. Pourriot 1–11

Combined effects of food level and inoculation density on competition between *Brachionus patulus* (Rotifera) and the cladocerans *Ceriodaphnia dubia* and *Moina macrocopa*
Maria Dolores Hurtado-Bocanegra, S. Nandini, S.S.S. Sarma 13–22

Spatial distribution, size structure, and prey of *Craspedacusta sowerbyi* Lankester in a shallow New Zealand lake
Ian K.G. Boothroyd, M. Kay Etheredge, John D. Green 23–32

Humic substance mineralization in a tropical oxbow lake (São Paulo, Brazil)
Marcela Bianchessi da Cunha-Santino, Irineu Bianchini Júnior 33–43

Impact of mass mortality of a mosquito fish, *Gambusia affinis* on the ecology of a fresh water eutrophic lake (Lake Naini Tal, India)
Surendra S. Nagdali, P. K. Gupta 45–52

Indicative profundal oligochaete assemblages in selected small Swedish lakes
Göran Milbrink, Tarmo Timm, Stefan Lundberg 53–61

Stability of interstitial crustacean communities in an isolated alluvial aquifer
Pascal Dumas 63–76

A new species of *Ainudrilus* (Tubificidae) from South Georgia, and other subantarctic freshwater oligochaetes
Christer Erséus, Reinmar Grimm 77–81

A new species of *Eumonhystera* and three species of *Monhystera* (Monhysteridae: Nematoda) from Li River, China
Peng YunLiang, Eyualem Abebe, August Coomans 83–93

Landscape patterns and stream reaches in the Alaskan taiga forest: potential roles of permafrost in differentiating macroinvertebrate communities
S. Smidt, M.W. Oswood 95–105

Determining trophic state in Lake Whatcom, Washington (USA), a soft water lake exhibiting seasonal nitrogen limitation
R. Matthews, M. Hilles, G. Pelletier 107–121

Changes in phytoplankton community along a transversal section of the Lower Paraná floodplain, Argentina
Fernando Unrein 123–134

A molecular test of cyanobacterial phylogeny: inferences from constraint analyses
M. K. Litvaitis 135–145

Contribution of copepods, cladocerans and cirripeds to phosphatase activity in mediterranean zooplankton
G. Bogé, J.L. Jamet, S. Richard, D. Jamet, N. Jean 147–154

A simple device for estimating rates of fine sediment transport along the bed of shallow streams
Nick R. Bond 155–161

Persistence of an unusual pelagic zooplankton assemblage in a clear, mountain lake
Gary L. Larson, Robert L. Hoffman, C. David McIntire 163–170

Congruent patterns of genetic variation in a burrowing freshwater crab revealed by allozymes and mt DNA sequence analysis
Savel R. Daniels, Barbara A. Stewart, Peter A. Cook 171–179

***Hanocladius*, a new orthoclad genus from China (Diptera: Chironomidae)**
Xinhua Wang, Ole A. Saether 181–183

Analysis of the morphology of *Spinalona anophtalma* Ciros-Pérez & Elías-Gutiérrez, 1997 (Aloninae, Anomopoda, Cladocera)
Alexey A. Kotov, Manuel Elías-Gutiérrez 185–192

Macrobenthos of a tidal impoundment at the Mai Po Marshes Nature Reserve, Hong Kong
T.H. Lui, S.Y. Lee, Y. Sadovy 193–212

Tripton, transparency and light penetration in seven New York reservoirs
Steven W. Effler, MaryGail Perkins, Nicholas Ohrazda, David A. Matthews, Rakesh Gelda, Feng Peng, David L. Johnson, Carol L. Stephczuk 213–232

Erratum
Patterns of macroalgal diversity, community composition and long-term changes along the Swedish west coast
M. Pedersén, P. Snoeijs 233

Book reviews 235–241

SALT ECOSYSTEMS SECTION

Edited by

John Melack & Patrick Sorgeloos

Preliminary genetic data on some Caribbean *Artemia franciscana* strains based on RAPD's
W. N. Camargo, P. Bossier, P. Sorgeloos, Y. Sun 245–249

Effects of lunar cycles on *Artemia* density in hypersaline environments
W.N. Camargo, L. Van Vooren, P. Sorgeloos 251–260

Biota of Lake Cheder (Tuva, Russia)
Yu. V. Naumenko, V.V. Zaika 261–263

Author index 265
